

Leak Repair Plugs

Ref: LRP1021

Leak Repair Plugs, also known as tapered screw plugs and boiler plugs are used to stop leaks in steel tanks, boilers, pipelines and dry barrel fire hydrants.

These self-threading plugs are made of heat treated alloy steel. It is recommended that they be welded into place after screwing into the hole.

Item Number	Size
LRP-0375	3/8" X 1 1/4"
LRP-0050	1/2" X 1 1/4"
LRP-0625	5/8" X 2 1/16"
LRP-0075	3/4" X 2 1/2"
LRP-0001	1" X 3 3/16"

► **Material:** AISI 1045 Alloy Steel, Heat Treated

► **Coating:** Black Oxygenation Treatment

► **Packaging:** Multiple of 20
